Directory buckets

General purpose buckets (1) Info

  Copy ARN  Empty  Delete  Create bucket

Buckets are containers for data stored in S3.

 Find buckets by name < 1 > 

	Name	AWS Region	Creation date
	manufacturing-control-tower-kusuma	Europe (Stockholm) eu-north-1	June 22, 2026, 17:41:10 (UTC+05:30)

► Account snapshot Info

Updated daily

 View dashboard

Storage Lens provides visibility into storage usage and activity trends.

► External access summary Info

Updated daily

External access findings help you identify bucket permissions that allow public access or access from other AWS accounts.

Objects are the fundamental entities stored in Amazon S3. You can use [Amazon S3 inventory](#) to get a list of all objects in your bucket. For others to access your objects, you'll need to explicitly grant them permissions. [Learn more](#)

Find objects by prefix
